About the Doctor

Dr. P. Prakash is a Consultant Plastic and Reconstructive Surgeon at Yashoda Hospitals, Hitec City. He specializes in a wide range of surgical procedures, including brachial plexus surgeries (upper, extended upper, and PAN plexus surgeries, including secondary procedures), hand surgeries, and microvascular surgeries. He completed fellowships in Supermicrosurgery and Hand Surgery in South Korea. His surgical expertise includes all types of trauma (limbs, faciomaxillary, and hand), burns, congenital anomalies, vascular anomalies, peripheral nerve injuries (primary and secondary procedures), and their comprehensive management. He is also proficient in performing a wide range of cosmetic surgeries, oncoplastic and orthoplastic reconstructions, and has performed successful reimplantations of upper limbs at various levels. Additionally, he has a special interest in the management of lymphedema. With his extensive knowledge and experience, Dr. Prakash brings a comprehensive approach to surgical interventions and provides exceptional care to his patients.
