

Dr. Navya KC

Qualification: MBBS, MD (OBG PGI, Chandigarh), DNB (OBG), Fellowship in Fetal Medicine (FMF-UK Accredited)

Department: Fetal Medicine

Designation: Consultant Fetal Medicine

Languages: English, Telugu, Tamil, Hindi, Punjabi

Experience: 10 yrs

About the Doctor

Dr. Navya KC is a Consultant Fetal Medicine at Yashoda Hospitals, Hitec City. She completed her MBBS from Government Chengalpattu Medical College in Tamil Nadu, where she ranked first (gold medalist) in Obstetrics and Gynecology in her final year of MBBS. Her pursuit of excellence led her to obtain an MD in Obstetrics and Gynecology from the prestigious PGIMER Chandigarh, where she topped her batch. She further honed her skills by completing an FMF-UK accredited Fellowship in Fetal Medicine at the Apollo Center for Fetal Medicine (ACFM) in New Delhi. Following this, she pursued an “Advanced Course in Fetal Medicine” at the Fetal Medicine Foundation (FMF) in London. She specializes in various aspects of Fetal Medicine, including First Trimester Screening, Preeclampsia Screening, Aneuploidy Screening, Cervical Screening, Anomaly Scans, Fetal Dopplers, Fetal Echocardiography, and Fetal Interventions (CVS, Amniocentesis, Intra-uterine Transfusions, Fetal Shunting Procedures, and Fetal Endoscopic Procedures). She also completed specialist certifications in Advanced Fetal Neuro-sonography (under the supervision of Prof. Dr. Karina Hartz from Israel) in 2019 and Advanced Fetal Echocardiography (under ISUOG) in 2020. Her clinical interests encompass Aneuploidy Screening, Preeclampsia, Fetal Growth Restriction, Multiple Pregnancies, Genetics, and Fetal Interventions. Dr. Navya KC is an active member of prestigious medical organizations, including the Fetal Medicine Foundation (FMF UK), ISUOG, FMFI, ISOPARB, SFM India, and FOGSI. She is a faculty speaker at various medical organizations, where she shares her knowledge and insights with fellow professionals.

Additionally, she received awards and accolades for her publications in reputed National and International journals.

Services Offered

Fetal Scans:

- Fetal Viability Scan
- Advanced Fetal NT Scan (FMF First Trimester Risk Assessment, Double Marker Test & Quadruple Test)
- Advanced Anomaly Scans
- Fetal Echocardiography (Advance Fetal Heart Scans)
- Fetal Neurosonogram (Advance Fetal Brain Scan)
- Fetal Growth and Dopplers
- 3D/4D Scans
- Cervical Screenings
- High Risk Pregnancies & Multiple Pregnancy Scans
- Pre-conceptional Counselling
- Comprehensive Genetic Counselling
- Genetic Testing (NIPT, Karyotype, FISH, Microarray, WES, Thalassemia Screening, Fetal Blood Grouping)
- 3D/4D Pelvic Scan
- Follicular Studies
- Fetal Procedures (In Utero):
 - Amniocentesis
 - Chorionic Villus Sampling (CVS)
 - Cord Blood Sampling
 - Fetal Reduction
 - Intrauterine Blood Transfusion
 - Fetal Shunting
 - Amniodrainage
 - Fetal Ascitic Tap
 - Fetal Pleural Tap
 - Fetoscope Procedures (Radiofrequency Ablation, Fetal Laser Procedures)

Awards and Achievements

- Awarded First Place for Poster Presentation at INSUOG, 2019
- Awarded First Place for Paper Presentation at AICOG, 2015
- Awarded Second Place for Paper Presentation at the North Zone FOGSI, 2015
- Distinction & Honors in more than 15 subjects during MBBS & University third in her batch

Professional Membership

- Fetal Medicine Foundation (FMF UK)
- International Society of Ultrasound in Obstetrics and Gynecology (ISUOG)

Fetal Medicine Foundation of India (FMFI)

- Indian Society of Perinatology and Reproductive Biology of Hyderabad (ISOPARB)
- Society of Fetal Medicine (SFM India)
- Federation of Obstetric and Gynaecological Societies of India (FOGSI)
- Obstetrics and Gynecology Society of Hyderabad (OGSH)

Research & Publications

- First trimester CRL and NT discordance in monochorionic twins an ominous sign or benign feature, JOGI 2020
- Improving perinatal outcomes: lessons learned from low middle income public hospital-an observational study from North India, BJOG 2019
- Elective fetal reduction in DCDA on parental request-a single centre experience in JFM
- Prediction of preeclampsia with maternal history, mean BP, uterine artery PI and serum biochemistry-single centre experience, PND
- Prediction of trisomy 21 with second trimester aneuploidy markers-single centre experience, JFM
