Dear Friends and Colleagues,

On behalf of the organizing committee, it is our great pleasure to invite you to the 1st Annual International Conference on Thoracic Sciences & Lung Transplant – “**THORAX 2025**” in the City of Pearls – Hyderabad, India – February 2025.

The theme of the congress is: “Minimally Invasive Pulmonologists Meet Minimally Invasive Thoracic Surgeons – Expanding Collaborative Horizons with Synergistic Collaboration.

We are proud to bring you a great synergy of expertise from internationally renowned scientists and pioneers in Thoracic Surgery & Lung Transplant through **THORAX 2025**. The scientific programme is designed to provide tangible benefits and networking opportunities for practicing adult thoracic surgeons, intensivists, pulmonologists, residents, fellows and nurses working in thoracic procedural specialties and transplant. It also provides a tremendous environment for early- career members to learn about prospects and professional development activities.

This year, we are introducing a new way of training through Video Forums, where speakers will educate beginners with video lectures on procedural aspects moving beyond conventional didactics.

**THORAX 2025** is mentored by a host of distinguished national and international faculty with decades of experience in Thoracic Surgery & Lung Transplant.

Hyderabad, the host city of **THORAX 2025**, is a vibrant blend of rich cultural heritage and history. It also offers all the possible conveniences and world-class facilities of the international metropolis that it has become today. February, with its pleasant weather, is the best time to enjoy the hospitality that the capital city has to offer.

Welcome to the “City of Pearls”, Hyderabad and experience bronchoscopy at **THORAX 2025**.

We look forward to seeing you,

**Dr. Pavan Gorukanti, MD**  
Pulmonary & Critical Care (ABIM)  
Director - Yashoda Hospitals
