Bringing Together the Best of India's Academia and Industry

Dear Friends & Colleagues,

It is a privilege to share a few thoughts as we gather for the **AI in Healthcare** Conference - an event that brings together some of the brightest minds shaping the future of medicine.

At Yashoda Hospitals, we've always believed in staying at the forefront of innovation. Today, Artificial Intelligence is opening doors that once seemed unimaginable. From early and accurate diagnoses to precision therapies, from optimizing hospital workflows to supporting overburdened healthcare systems - AI is not just a tool, it's becoming an integral partner in delivering care. But amid all the technological breakthroughs, we must remember that at the heart of healthcare is the Human Touch. AI should enhance that touch, not to replace it. Our goal must be, to use these powerful technologies to make care more personal, more accessible, and more impactful for every patient, everywhere.

This conference is a timely opportunity to learn from one another, explore possibilities, and build partnerships that will shape the next chapter of healthcare. I look forward to the ideas, conversations, and innovations that will emerge from this gathering, and more importantly, to the lives they will help to improve. Wishing each one of you a meaningful and inspiring experience.

Mr. Dheeraj Kumar G
Director - Yashoda Hospitals

Dear Friends & Colleagues,

We are proud to host some of the finest National and International Faculty, who bring both Vision and Experience from the frontlines of AI-powered care. Together, we are shaping real-world applications - from early diagnosis and robotic surgery to public health transformation and predictive analytics.

At Yashoda Hospitals, we believe that data-driven care must be Compassionate, Inclusive, and Ethical. This conference stands as a testament to what can be achieved through meaningful partnerships and purposeful innovation. We envision this as not just a meeting of minds, but a launchpad for the most impactful AI in Healthcare Conference in the Region. Your presence reaffirms our shared commitment to building a future where technology and humanity walk hand-in-hand.

Welcome to the Future of Healthcare - Intelligent, Inclusive, and Inspiring.
