### **Who Should Attend**

- Physicians
- General Practitioners
- Infectious Disease Specialists and Other Medical Specialists
- Critical Care Physicians, Pulmonologists, Clinical Microbiologists
- Postgraduate Students in Medicine, Anesthesia, Critical Care & Emergency Medicine, Pulmonology, Microbiology, General Surgery, Pediatrics, Obstetrics & Gynecology
- Superspecialty Residents

### **Why You Should Attend:**

Infectious Diseases form a vital component of clinical practice, with continuous advancements and evolving updates particularly in the management of infections in ICU settings. Staying current with the latest knowledge and evidence-based practices is essential for delivering optimal patient care.

This conference offers an excellent opportunity for postgraduate students and super-specialty residents to learn from leading experts from across the country and abroad about the latest developments in the field.

Clinicians, critical care specialists, and microbiologists will also benefit from in-depth discussions on real-time challenges in managing infectious diseases, along with insights into emerging diagnostic modalities and contemporary treatment strategies.

### Program Highlights:

- Real Cases, Real Solutions
- Infectious Diseases in the ICU
- Managing Difficult-to-Treat Pathogens
- What's New in Tuberculosis (TB)
- Updates on HIV, Opportunistic Infections (OI), and Novel Therapeutic Options
- Advances in Molecular Diagnostics
- The Key Role of the Clinical Microbiologist in Infectious Diseases
- Interpretation of Diagnostic Tests and Cultures
- Advanced Therapeutics and Emerging Treatment Strategies
- Session on Postnatal Infections and Pediatrics Infections

### Session Highlights:

- Critical Care and Infectious Diseases
- Tropical and Infectious Diseases
- Transplant Infectious Diseases
- Clinical Microbiology and Infectious Disease Correlation
- Infections in the Immunocompromised: HIV and Other Conditions
- Infectious Diseases in Oncology
- Molecular and Advanced Diagnostics
- Vaccination and Other Preventive Strategies
- Infectious Diseases in Pediatrics practice
